### **PowerBuilder Software Developer**

IMEX Global Solutions, LLC - Newark, NJ

July 2014 to July 2018

- \* Improved in-house OPS system to take advantage of new service offered by vendor, leading to estimated monthly savings of \$2,000-10,000 per month.
- \* Integrated two new vendors into GPS routing systems for facilities across the United States, saving a combined \$7,000 per month.
- \* Wrote SQL queries utilizing PowerBuilder and Sybase SQL for troubleshooting and to maintain and provide IT support to our in-house system OPS.
- \* Facilitated new customer and vendor integration into OPS using API calls.
- \* Created web service proxies and calling web services using EasySoap.
- \* Designed a Mail Tracking application that connects to the vendor's FTP site, retrieving tracking files and processing them into our OPS system.
- \* Developed a utility application to push packages from a Fox Pro-based application to our PowerBuilder application (OPS).
- \* Researched, identified, and fixed bugs in both existing and new software.

### **Software Application Engineer**

Stellar Technologies Solutions, LLC - Stroudsburg, PA

January 2014 to March 2014

- \* Utilized PowerBuilder 11.5, Sybase EA Server, T-SQL, HTML, and JavaScript to create, maintain and enhance software and outsourced business services.
- \* Coded, implemented, and integrated scripts to enhance user experience.
- \* Debugged and modified software components for optimized performance.

### **Senior PowerBuilder Programmer**
